Resume

Leevon Levasseur. Software Developer II at Konrad. Toronto, Ontario, Canada. LinkedIn

TODO(owner): The role you're after, and your email and GitHub if you want them here.

Summary

I'm a professional software developer and educator. I build agents for enterprise clients, mostly with TypeScript, Node, React and Python. I believe rewarding work includes collaboration, communication, education, and helping those in need.

Experience

Konrad

- Software Developer II (current)
- Software Developer
- Associate Software Developer

TODO(owner): Dates for each title, and two to four lines on what you shipped and its result. The sources give no dates and no project detail.

Teaching

BrainStation, Associate Educator, Web Development

- Taught web development. Through work with Canada Learning Code, the Code to Career initiative helped empower over 800 talented adults in Canada.
- Hosted and promoted community events on the Vancouver campus: Demo Day, the Vancouver Tech Social and career panels.

TODO(owner): Dates for the BrainStation role.

Projects

- NucksTalk stat sheet generator: a stat sheet generator I built for NucksTalk, one of my hockey side projects.
- World Juniors league: a private World Juniors fantasy league I run.

Skills

- Languages and frameworks: TypeScript, Node, React, Python, MySQL, Three.js, Electron
- Agents: development with agents; AWS Kendra and Bedrock; Azure AI Foundry and AI Search

Education

- Product Management Certificate, BrainStation. An 8-week program. With a teammate, I proposed Playbook, an MVP hub for learning about and watching major North American sports, from discovery and a Figma prototype through to a live demo.
- University of Victoria

TODO(owner): Your University of Victoria degree or program and its dates, and the certificate's date.
